> About me

Why I am here today?

What usually happens during 4 years  
of college?

Party mode: ON

How was my experience in college?

Enjoy your time and learn something on  
the side

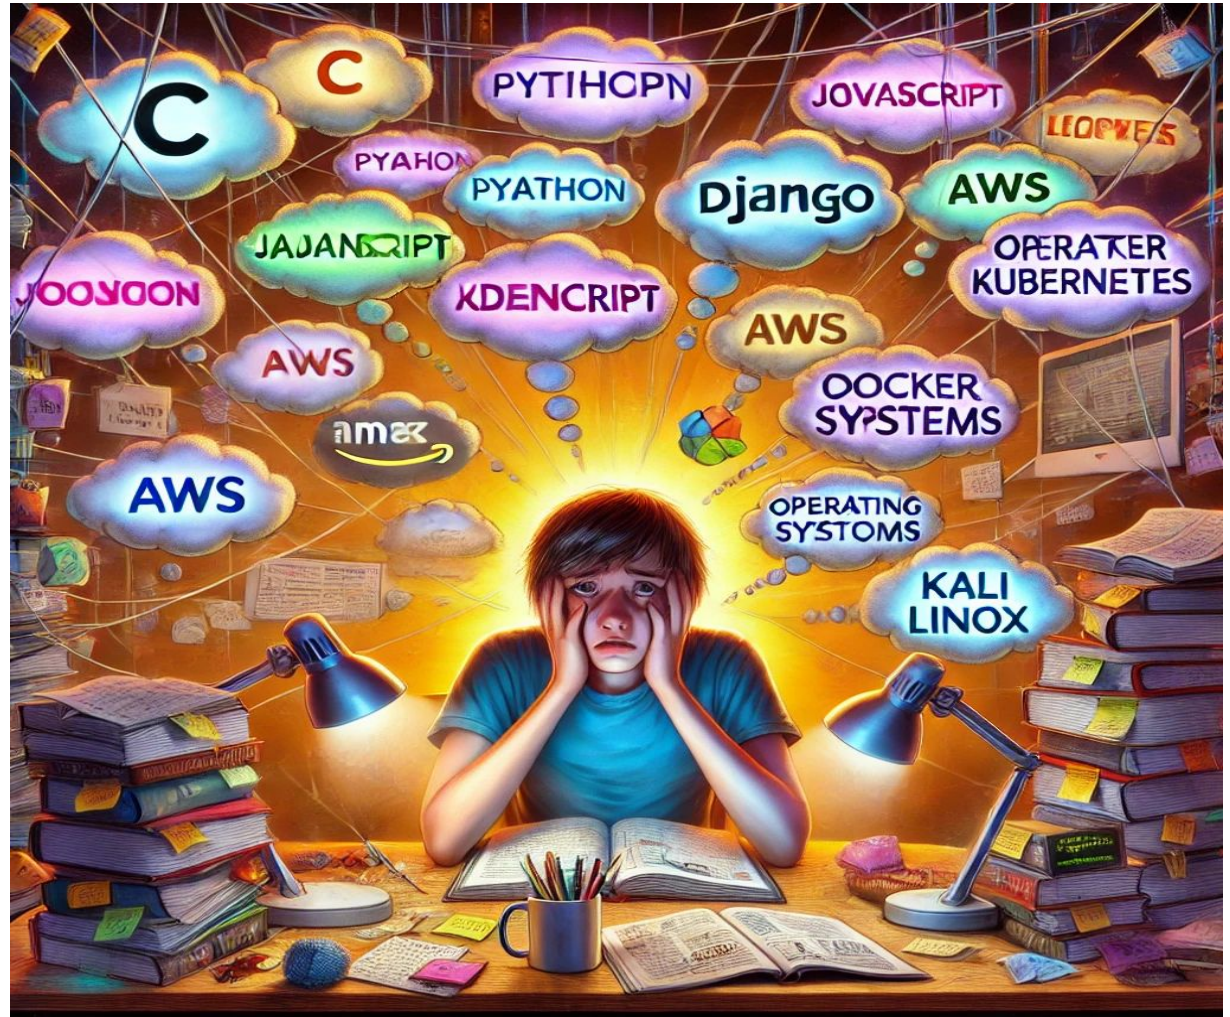

You want to learn something.  
Now what?

# Problems

> Do not try  
to learn all at  
once

What should I learn then?

> Foundation matters

What are the building blocks?

- Programming
- Linux
- Networking
- Cryptography

# Programming Creation

# Linux

Life to the apps

# Networking

Social network for apps

# Cryptography

## Secrets

# Career on cybersecurity

# Programming Creation

# Linux

Life to the apps

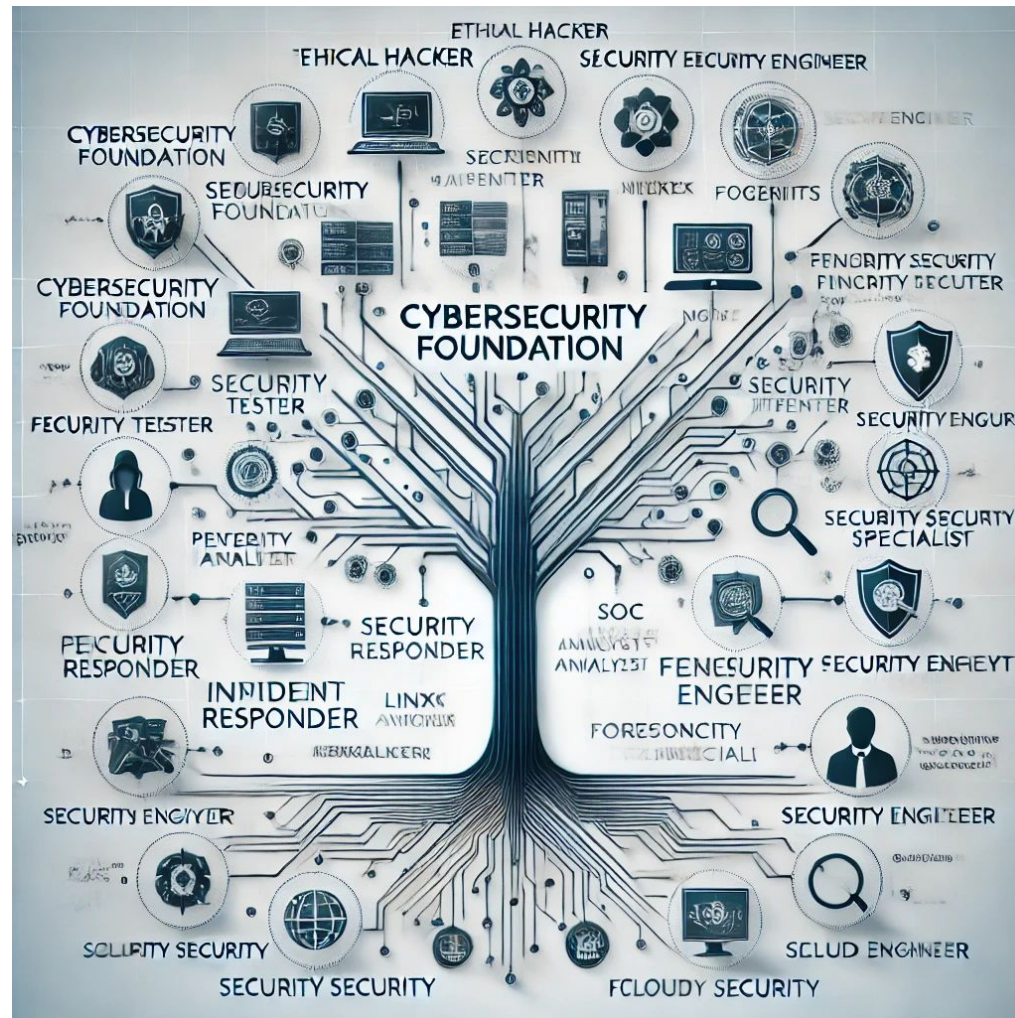

# **Networking**

Social network for apps

# Cryptography

## Secrets

> Current  
available  
jobs

**What to choose  
from these 4?**

# Programming Creation

**Which  
programming  
language?**

C

**Approach for  
learning?**

# Learn, create, write and improve

- Learn concepts
- Create something with your own fingers
- Write about them
- Keep learning and improving

# Spend time on projects

- Create projects
- Showcase them in github
- Write blog posts
- Peer learning

**Do not have  
idea for a project?**

**ASK**

# **Networking Matters**

**Learn how to ask**
